

Every pet benefits from complete and consistent comprehensive care, designed to alleviate or eliminate medical problems early in the process. Our Wellness Programs are veterinarian designed to make high quality preventative care affordable. We believe that a high quality preventative care program will help our pets live longer and happier lives. All programs have a strong preventative basis, emphasising regular health checks, vaccinations, parasite control, and consultations with caring veterinarians.

# WELLNESS PROGRAMS FOR DOGS & PUPPIES

Specially designed for your canine friend

## OUR WELLNESS PROGRAM ADVANTAGES

- ✓ Comprehensive, high quality care designed for early detection of disease.
- ✓ Convenient and affordable monthly payments or a discounted full payment.
- ✓ Dedicated veterinarians who care about providing the best for your pet.
- ✓ Convenient hours to provide care for your pet Monday to Sunday.
- ✓ Additional 10% to 20% discount on many services within the Wellness Program.
- ✓ A 20% discount on all consultation fees throughout the year provides substantial additional savings.

## PRODUCTS USED

We use a range of products in our Wellness Programs, e.g. for vaccines:

- C5 Vaccination (for Dogs)
- Distemper
  - Hepatitis
  - Parvovirus
  - Parainfluenza (Kennel cough - viral)
  - Bordatella bronchiseptica (Kennel cough - bacterial)

The products used in our Wellness Programs have been carefully selected with your pet's optimum health care in mind. Our selection enables us to provide the best health care possible at the most affordable price for you, therefore we are not able to substitute a different product.

## DIFFERENT PAYMENT OPTIONS TO CHOOSE FROM

You can select from two payment options: One discounted upfront payment or monthly instalment payments.

If choosing the monthly instalment payments, you will be charged an initial deposit to commence the program. Subsequent monthly payments will be via direct debit.

Instalment payments include a fee of \$2.50 per month over 12 months, total fee \$30 per program.

## IS A WELLNESS PROGRAM PET INSURANCE?

No, these are different.

A Wellness Program provides your pet with preventative health care. Pet insurance is paid coverage for incidents or illnesses, which may occur during the life of your pet.

The Wellness Program has been designed to detect and help in the prevention of various health related problems and to treat any such issues before they become major problems.

## PROGRAM OPTIONS TO SUIT YOU & YOUR PET

### DIFFERENT PETS HAVE DIFFERENT NEEDS

#### PUPPY WELLNESS PROGRAM (under 6 months)

Growing puppies have special veterinary needs. Get them off to the best possible start with the Port Kennedy Veterinary Hospital Puppy Wellness Program designed especially for this developmental stage. Puppyhood is a delicate life stage that requires careful attention and solid preventive care habits. The Puppy Wellness Program can help give you both.

#### DOG WELLNESS PROGRAM

As dogs age, dogs' health care needs inevitably change. Dogs age quickly, so their medical needs are always evolving. Stay ahead of this process with ongoing preventative care so they can have the happiest, longest life possible.

All Port Kennedy Veterinary Hospital Wellness Programs provide optimum parasite control, as well as vaccinations, to protect your pet from the range of nasties that it can come across in everyday life. Parasite control is supplied to you every month so you don't have to think about it. This helps ensure your pet never misses a treatment.

Regular health checks are important. This means that if there are any health issues which are beginning to emerge, they can be detected early. Your free Nurse Consult scheduled for the 11th month of your membership includes a dental check, dietary review and advice on your pet's body condition (coat/skin/ weight).
